The following "sad case" is recorded in the Titusville Herald, which it hopes may serve as a warning: "Two well-dressed and fine-looking ladies instantly dislocated their necks while passing each other, in trying to discover what each had on. It was cloudy; the speed at which they were moving, and the delicate shade of the dry goods worn by each, operated against them, and a sud-den tack with all sail set against a stiff breeze fetched them up too short, and they perished."

CONSUMPTION, ITS CURE AND ITS PREVENTIVE BY'J' H. SCHENCK, M. D.

MANY a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are, sleeping the dreamless slumber into which, had they calmive adopted DR. JOSEPH H. SCHENOR'S

SIMPLE TREATMENT.

And availed themselves of his wonderful effi-caclous medicines, they would not have fallen. Dr. Schenck has, in his own case, proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptious. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and vi-ble works. The theory of the cure by Dr. Schenck's medicine is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadol of the malady is assailed. Two-thirds of the cases of consumption originate in dysopesia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver, Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel; but, unlike calomel, they

He is also to be taken to South Carolina to be tried under the Ku Klux bill in the United States Court.

"LEAVE NO STING BEHIND." "LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

AS the sale of tickets in the Co-operative Building Association has been so rapid, thus reducing the expenses of the raffle very materially, the General Agent has concluded to reduce the number of tickets to 2,000. As this scheme was not designed as a speculation, but merely to change the investment to more extensive improvements in the city, it is hoped that the advantage in the reduction of the number of tickets may be readily seen and appreciated. HOW WE USED TO BE PHYSICK-ED .- Who does not remember the time when spring purgation was considered indispensable to summer health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calomel and jalap, must be administered. These "spring medicines," the young sters were told, were to keep them hale and hearty during the summer. Wo all know now that this was a fallacy; that new vigor, not depletion, is what is required at the come mencement of the summer solstice. As a preparation for the enervating effects of oppressive summer weather, a course of HOS-TETTER'S STOMACH BITTERS is highly expedient. This famous vegetable preparation has three prominent properties: It renovates, purifies and regulates all the functions of the body. It is composed exclusively of pure vegetable productions, viz: The essential principle of Monongahela Rye, and the most efficacious tonic and alterative roots, barks and gome known to medical botanists. Hence, it is an absolutely, as fo medicine, and no tincture of the Pharmacopous can compare with it either in purity, or in the variety of its objects, and its comprehensive results. Happily for mankind, the theory that it was necessary to prostrate a patient in order to cure him, is forever exploded, and the true, philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hosteter's Bitters is an invigorant, and hence it is the proper medicine for the feeble at this most trying season of the year.

Be sure that you obtain the genuine article, as there are innumerable vile imitations in the market. Look to the ornamental stamp, the engraved label, and the name blown into the glass. Hostetter's Stomach Bitters is sold in bottles only.

REYNOLDS' IMPROVEMENT.

REYNOLDS' IMPROVEMENT.

THOSE who have lost several Natural Teeth, and have been advised to part with remaining sound 'ones, as the first step towards obtaining artificial substitutes, are requested, before submitting to a practice, cruei in itself and often unnecessarily performed, to convince themselves of its fallacy, by looking closely into a matter of so much importance.

The above improvement was designed to resist so deplorable a practice, and after a thorough test of more than three years, is found capable of accomplishing what no' other system of Artificial Dentistry has heretofore done. It is now possible to obtain partial cases, which will eave for years Natural Teeth, and be at the same time reliable in every respect.

An invitation is hereby given to such as feel interested to call at our Operating Rooms, and examine duplicate specimens of cases now in actual use.
